

Innovation Display

***Solution Provider and
Manufacturer***

WHO WE ARE

About Our company

Caamatech is all about providing the retail industry with high-quality display solutions, including smart interactive displays, custom fixtures, window display props, resin crafts, paper props, LED signs, and also acrylic and plastic products, along with metal display shelves, among others. Our goal is to make sure your products are shown off in the best way possible, creating displays that not only catch the eye but are also practical and built to last. Our experienced team has a solid track record of working with well-known retail groups, handling everything from the initial concept to production and project management. No matter the size or complexity of the project, we're committed to delivering top-quality results while keeping prices competitive.

Caamatech 致力于为零售行业提供高质量的展示解决方案，包括智能互动展示、定制固定装置、橱窗展示道具、树脂装饰工艺品、纸制道具、LED标识、以及亚克力和塑料产品，还有金属展示架等。我们的目标是确保您的产品能以最佳方式展示出来，创造不仅吸引人眼球而且实用且耐用的展示道具。我们经验丰富的团队拥有与知名零售集团合作的丰富经验，从初始概念到生产再到项目管理，无论项目大小或复杂性如何，都能确保提供高质量的结果，同时保持竞争力的价格。

Our Values Define Us

What we do

Interactive Display

Our interactive displays are outfitted with sophisticated features such as voice systems and programmed lighting. These intelligent functions can be combined with other fixtures, such as an RGB illuminated display cabinet. This highly customizable and innovative design concept helps us to keep up with industry trends.

Display Fixture

A comprehensive supply of display items plays a crucial role in a visual marketing project. They are not only simple decorative elements but also a powerful tool to convey brand information and attract customers. By integrating products, visual marketing can create unique and memorable shopping experiences that stimulate customer engagement and drive sales.

Advantage

Diverse Products

Offers a wide range of solutions from smart displays to custom fixtures.

Quality Commitment

Ensures products are both visually appealing and durable.

One-Stop Service

Covers everything from design to project management.

Customized Service

Tailors display solutions to meet specific brand needs.

Industry Experience

Rich history of collaboration with top retail groups.

Continuous Cost Optimization

Focuses on improving cost-efficiency to enhance value.

OUR FACTORY

Metal Workshop

Metal Workshop at our metal workshop, we use high-tech equipment to prepare and weld metal materials. We start by cutting, drilling, and bending the metal material according to the specified drawings. Next, we carefully weld each of these individual parts together to create a seamless whole. At the last, we polish and package the finished metal products to ensure that they meet our high standards of quality.

Wood Workshop

Woodworking is a craft that demands precision, and our wood workshop is equipped with a variety of sawing machines to cut the material into the desired shape. Our production line also includes sanding and mounting wood products to ensure that they are delivered to the customer as a beautiful piece of wood art!

LED and electronic control system

If any of our products require a light-emitting lamp, we will send it to our LED lamp shop for processing. Our skilled craftsmen will carefully align the lights based on the characteristics of the product and then test the luminous effect of the assembled products. If the product meets our expectations, we will then seal and dry the bulbs. At the last, the products will be packaged and delivered to the customer.

Paint Workshop

In this stage of production, our skilled craftsmen will paint and color the assembled products as per the customers' preferences. Our professional team will ensure that the paint is applied smoothly to create an impressive visual effect of the product. After coloring, the next step is to leave the painted product to dry before packaging.

Acrylic Workshop

Acrylic workshop, where precision meets efficiency. Equipped with CNC engraving and laser cutting, our workshop fabricated high-quality acrylic products to specifications. After cutting, our skilled artisans meticulously polish each piece to perfection. Finally, our painting station adds the finishing touches, ensuring every product meets our high standards of quality and aesthetics.

Assembly Workshop

After cutting, sanding, and bending the material for the product, the next step is to assemble each part in the assembly shop. Our skilled craftsmen will pay attention to every detail to make sure that the finished product is robust and long-lasting.
